

Montana Native Plant Society
Sources of Native Plants
2011 edition

The Montana Native Plant Society is pleased to present this list of sources of Montana native plants as a public service. We do not specifically endorse or certify the providers listed here. At the same time, we strongly encourage the public to support nurseries that sell native plants and to ask nurseries that do not, to become a part of the "plant native" initiative. We encourage all nurseries, garden departments and mail order companies who do business in the state of Montana to offer Montana native plant species and seeds. We challenge the nursery industry to better educate the public on the important role that Montana native plant species should play in our landscape environments which we have been advocating for over two decades.

Additions, corrections and comments are welcome. Please send to Landscape Committee Chair, MNPS, P.O. Box 8783, Missoula, MT 59807-8783 or email: kathysette@live.com
